DC3010 Individual Project Diary

Date	Entry
9th Jan	Submission of Project definition form for "Securely Auditing Distributed Transactions"
27th Jan	Change of project to "Making the web more accessible"
6th Feb 11:00	Initial meeting with Harry (Face to face) to discuss the projects scope - Demonstrated the background for where the project came from and where it sits within the business - Suggested a range of ideas and directions the project could go in - Harry suggested I focus my thoughts by undertaking additional research into a few of the ideas - Harry suggested I form a more detailed plan - Harry advised me to go away and re-read the student guidance

6th Feb 14:00	Second meeting with Harry (Face to face). A more detailed project plan and thoughts had been focussed in the Gap.
	- Two deliverables discussed
	  o An Accessibility Guide (A11Y Guide) which would offer training to developers
	  o A framework for enabling the identification of accessibility issues (A11Y Tool)
	- Discussed wider tools and where the A11Y tool would fit
	- Demonstrated plan for February, March and April and documented deliverables for Harry at each point.
	- Harry suggested I consider whether an ethics board review is required
	- Harry suggested I look at methods of engaging the Capgemini community
	- Harry suggested I discuss with John (Academic supervisor) business value
	- Harry confirmed I was ok to experiment with project diary through blogging platforms

17th Feb	First blog post published on medium. Two others followed prior to the 23rd.
23rd Feb	Third meeting with Harry (Telephone). - Discussed report structure - Discussed first blog post and received feedback - Harry gave the ok to the project being undertaken in a completely open, transparent and public manner using github. - Harry suggested
26th Feb	Report set up for continuous delivery through Github & Travis CI
5th March	Project work halted due to Academic Exams
6th March	Confirmation of Asssitive trial usage for academic projects received
10th March	Project resumes

10th March	Face to face meeting with Harry - Feedback on report heading and structure sought - Harry suggested I focus on the flow and ensure I document the 'why' and the 'how' when doing things. - Harry mentioned my Table of Contents was not generating and gave advice how to implement this with Latex - The discussion was limited due to lack of progress on deliverables
20th March	James Illness
27th March	James reschedules meeting with Harry due to illness
30th March – 2nd April	First version of A11Y-links
3rd April	Forth meeting with Harry (Telephone) - James discusses progress with A11Y Links - Harry suggests this is documented in report with exagraeration on the How and Why - Discussion around reaching out to charities concludes with James aiming to produce an email to send out -
4th April – 12th April	Continued illness – Little to no progress
13th April	Fith meeting with Harry (Telephone) - Discussions around how to bring the project back on track - Discussions around CSUN conference - Discussions around family friend whom uses assistive tooling - Explanations of Common Web Frameworks
13th April – 28th April	Continued illness – Little to no progress
28th April – 03 May	James starts getting project on track – Change of process - Iterative delivery of A11Y Guide - Planning A11Y Tool - Creation of Colour Contrast tool - Filling out report content (Background)
03 May	Sixth Meeting with Harry (Telephone) - Discussions around possible extensions. James confirms he wishes to continue with current deadlines - Harry reports back on report progress suggesting a focus on user requirements, business value - James confirms he will have more report content complete by end of week

	- James suggests change of structure to report to help it flow
03 May – 10th May	- A11Y Guide completed - A11Y Tool design completed - Report A11Y Guide content completed
10th May	Seventh Meeting with Harry - James arrived on the call late - Discussions around what should be included in the final presentations - Harry gave advice on restructuring questionnaire section of report
12th May	- A11Y mostly completed
16th May	Final meeting with Harry (Telephone) - Limited items to discuss - Chatted about final presentations - Discussed feedback options post project completion
