Quick Web Questionnaire

This is a short questionnaire to identify what components and frameworks are in use.

Will close on Monday 1st May

I will use this to:
   - Collate a collection of great libraries/resources which work well with 'assistive tools' and are WCAG compliant
   - Produce some specific implementation guidance using the most 'popular components' in the most 'popular frameworks'

1. **What JS framework is/are in action on you're current project?**
   Tick all that apply.

   ☐ Angular 1.0

   ☐ Angular (2 or 4)

   ☐ React

   ☐ Backbone

   ☐ Ember

   ☐ Dojo

   ☐ Plain old Javascript

   ☐ JQuery

   ☐ Other: _____

2. **What JS frameworks would you consider yourself 'competent' in?**
   Tick all that apply.

   ☐ Angular 1.0

   ☐ Angular (2 or 4)

   ☐ React

   ☐ Backbone

   ☐ Ember

   ☐ Dojo

   ☐ JQuery

   ☐ Other: _____

3. **Which of the following 'styling' frameworks do you use or actively recommend to others?**
Tick all that apply.

- [ ] Twitter Bootstrap
- [ ] Foundation
- [ ] Instructure UI
- [ ] Material (Angular Material, React Material, mdl)
- [ ] YUI
- [ ] Skeleton
- [ ] Kube
- [ ] Other: _____

4. **What other JS, CSS frameworks do you use? Feel free to copy a package.json into here**

_____

_____

_____

_____

_____

5. **What form items does your project use?**
Tick all that apply.

- [ ] Text inputs
- [ ] Password inputs
- [ ] Credit card inputs
- [ ] Text areas
- [ ] Select menus
- [ ] Multi select menus
- [ ] Range sliders
- [ ] Rating bars
- [ ] WYSIWYG editors
- [ ] Validation alerts
- [ ] Inline validation
- [ ] Other: _____

6. **What web components does your project use?**
Tick all that apply.

- ☐ Dialogs
- ☐ Navbars
- ☐ Hamburger menus
- ☐ Accordians
- ☐ Images
- ☐ Tabs
- ☐ Breadcrumbs
- ☐ Progress Bars
- ☐ Rating bars
- ☐ Tables
- ☐ Tooltips
- ☐ Other: _____

7. **What level would you consider your web accessibility knowledge?**
Mark only one oval.

- ◯ None
- ◯ Fundamental Awareness - Know what it is, but not how to implement it
- ◯ Novice - Can implement with help from Google
- ◯ Intermediate - Can implement with help and has experience testing with tools such as JAWS, Dragon
- ◯ Advanced - Can implement without help, understands & explains how. Knows best practice
- ◯ Expert - The 'go to' person for web accessibility (Please get in touch)

8. **Anything specific you'd like to see, understand more about in Web Accessibility?**

_____

_____

_____

_____

_____
